The Wisdom & Musings of John, an Old Retired Chicago Cop

Part 2

[<http://katana17.wordpress.com/>]

September 12, 2014

[Image] This was the reflective decal that was used on CPD cars in the sixties and seventies.

The following comments were all made on the excellent **Irish Savant** blog* starting from **Nov 2010 to Feb 2013**. As a retired cop from Chicago, John's comments reflect his street-wise wisdom, race realism and cutting humor that will have savvy readers nodding (and occasionally laughing) in agreement, or not.

* <http://irishsavant.blogspot.com/>

WARNING!

- John's worldview is an acquired one, so bear with the birth pangs.
- John appears to have an on and off love affair with his CAPS KEY. It's usually either ON or off. I suspect the cause of this stems simply from a sense of efficiency — why spend time and energy in engaging or disengaging that damn CAPS KEY lock? AND BTW, WTF IS A CAPS KEY LOCK?
- In a similar vein John is not man to be held down by tyrannical rules concerning punctuation, grammar or spelling. Real men make and follow their own rules.
- John calls a spade a fucking spade. He doesn't call a nigger an African American, he calls him a nigger. Likewise he doesn't call a jew a Chosen One, he calls him a jew.
- Dim Witted Liberals (DWL) and the Politically Correct (PC) crowds will find the following material deeply shocking and offensive. As John would say, "WELL FUCK OFF!" For those that persist, you can learn a lot from someone who has spent his life dealing with the damage to society that you fuckers have created.

With the above warning in mind please learn and enjoy!

PS: John, if you are reading this, many thanks!

Note: The bold text refers to the blog post title being commented on in the Irish Savant.

@Andreas; we have a new police supt, here that we thought may have promise, but during the heat wave last week when it hit 90 degrees the formely all white North Ave beach on the north side was suddenly closed, and the reson given was people were passing out from heat exhaustion and the EMS was not able to get to them because of the crowds, total lying bullshit,,,, the real reason was that the westside niggers discovered that this beach was all white and they came and stole, grouped young white girls and acted out their stupity. the new supt.is just another liar who came from Newark, NJ another niigerfied domain. SAVANT, could you clarify a story that has been circulating amongst police here in Chicago for the last 10 yrs at least, we have a horse ass alder their named Eddie Burke who some yrs back notified the Irish Gardai through the U, S, embassy in Dublin that his no personality daughter was visiting and wanted a personal body guard for her, for what reason other then a huge ego i cant understand, any how the Gardai with a strange sense of wicked humour sent a guy who must of been the station house screwup/boozer as the Gardai no doubt who the fuck does this fucking yank think hes about, when the Royal Princess Burke and the hapless Gardai officer got to the Embassy he wandered off and began to partake at the open bar, see where this is going, later in the evening when the Princess was boring everyone with stories of Daddys greatness a crash was heard and the gallant Gardai was putting his fist through windows, perhaps for ventalation who knows, and ripped the french doors off the hinges and for a colossal finish, and i would have paid to see this, pulled his pants down and sat in the punch bowl and then ran amok around room shaking the old weiner at all and sundry, the Embassy Marines i understand pissed themselves laughing and put him in restraints and called the cops on the cop, this made it in the local Chicago papers and was then pulled, but the story lived on, did you ever hear of this tale, we wait with bated breath, John Old Rtd, Chicago Copper,

some years back all police officers in chicago were required to attend a course on dealing with domestic violence issues, they sent us to Daley college on the south side named after our great nigger loving mayor who couldnt do enough for the peoples in order to get their vote, but i digress from topic at hand,this course was given by a middle aged fat shaboon who requested that when we asked a question that she be addressed by her title.i beleive it was professer top titty or some such nonsense,anyway after she got off the given topic of domestic violence the whole issue was race, race ,race,needless to say she was cut a new

one by the lads,hey professor top titty how come detroit is a war zone and a slum it didnt used to be,etc etc,hey profeesor how come the projects are now slums and didnt look like that when built,hey professor what are you going to do with the unwed mommies out their,were tired of paying for them.she went completly beserk and started slamming chairs,screaming. yelling knocking over equipment etc,two other instructors had to come in and escort her out and mr.white guilt liberal told us we should be ashamed of ourseleves,we replied for what,telling the truth,we laughed all the way back to the station.John old rtd chicago copper,

savant just imagine,2 in the morning,temp in the upper 80s hot and humid,middle of nigger town.stores open, barbers cutting hair,rib joints doing brisk business, little kids running all over the place,it looks like noon.here come SHERIKA eating a box of rib tips and weight about 250 on a 5 4 frame and shes screaming that her boyfriend smacked her,thought probably for being fat or taking all her rib tips,anyway as cops we have to shoe horn her big ass into the back of squad car and take her to her roach encrusted nest,wherethe filth and stench would knock you down,there we meet her signifigant other LEROY,he bes her babies daddy and he is having none of it and the shouts, roars,and yelling attract the other inhabitants of low lifes in the building who join in of let the brother go and the polices be racist, blah blah blah,after we wrestle Leroy to squad followed by the neighbors and the humongous rib tip eater she decides she wants her man at home and wont sign complaints,we explain to infant mind that once the cuffs go on they dont come off untill hes locked up.this sets off loud wailings and animals sounds from the riB eater, now she fall down and says she has a heart

attack and we should call the amberlamps,now you have to realize the other animals are yelling for police to take her to hospital etc along with many fuck the police etc.at this time a 10 1 is called the police need help and soon the area is flooded with blue lights and many squads,after this we are in the old 1916 built police station with no air conditioning doing mutiple arrest reports for disorderly conduct and assorted mayhem.rib tip lady is in hospital getting tests done on taxpayer dime and Leroy.well lets just say he beat us home on a personal reconize bond where he walks just by signing his name,and they wonder why cops drink.JOHN OLD RTD CHICAGO COPPER,

ahh Judge Brim and her play African clothing and get up.we could always be assured when in her court room that the giggles and laughs would be plentiful.She was the equivilent of putting Butterfly McQueen on the bench.if you recall Gone With The Wind.:ise dont no nothing bout birthing babies Miz Scarlett:This is the same sort of Nubian,completely ignorant of the law,of professionalism or of common court room decorum.she would drool over a nigger suspect and ask if the perp thought the police were racist in their attitudes toward the perp when he was arressted,dumb nigger would stand there mouth agape HUH.OTHER responsible judges would have nothing to do with her either in a professional or social capacity.I will say that a few black jurists stated that they were totally embarressed by her antics and court decourum which she was always late to,when the judges had a xmas celebration she was never invited to it if it was held in a white owned hall because she would have a few and yell the race card when the bill came,she will be voted in again im sure as the stupid nigs know no better, JOHN OLD RTD CHICAGO COPPER.

oak park ilinois,former home of Earnest Hemingway.now a hot bed of super leftist liberals,my bet would be that if they catch the shit flinget the lib tard would refuse to prosecute and sign cpmlaints,a classic example some years back when a silly Irish denizen of Oak Park was a public defender at Cook Conty states attny office took on a case of young nigger thug who was accused of armed robbery young Irish liberal girl got the simian off on a plea bargain and then Willie decided that the young white air head was in love with him,he then found out where she lived and started to stalk her and when she complained to the cops she said just tell him to stay away,one morning the nigger laid for her and dragged silly white girl into a area concealed and raped and murdered her,this is the type of mentality that these apes have.she should of railroaded the prick to prison.she would still be alive.JOHN OLD RTD CHICAGO COPPER.

chicago now has the highest in street parking fees in the usa, 6,50 per hour anywhere in the Loop area and 4,00 per hr in outlying areas,this was part of the Daley legacy that he left us when he retired,he sold this to a french outfit we beleive for millions and its for 99 years,the locals have found ways to sabotage this system tho,popcicle sticks and gorilla glue.shades of the resistance,John old rtd.chicago copper.

The shape of things to come?

off topic savant,here in chicago met a old time italian who was in italian army and wound up back in italy from north africa after italy was knocked out of the war,naturally there was a shortage of everything but they found out that if they had the money or anything of value they could get the blacks who drove army trucks to divert the loads and give them what was on board,one time this group of italians found some nigger boys who stated they had a load of gi boots and clothes on board and would sell them the whole truck and report it stolen.the italians agreed and took possession of the truck and got it to a secluded location and opened up back and found it contained the bodies of killed in action american gis,if the army found them they would have shot them on sight,this should go to how low can you go catagory,, john old rtd, chicago copper,,
